### Russel & Aitken Papers finding aid (1): List of Contents

The Russel & Aitken collections consist of the records of clients of the firm of solicitors as well as the records of the firm itself. This is a very large collection and the arrangement and description of the records will take some years to complete. The list of contents below shows the complete list of finding aids, but only a few are currently available on the website.

Finding aids which are not yet published on the website are available in draft versions on request – please note that they use temporary numbers and the descriptions may be changed when these finding aids are finalised.

The finding aid for the Russel & Aitken Papers has been divided into 63 parts. This part contains a list of contents.
